

# QVR Quick Start Guide

Qwizdom Actionpoint Software

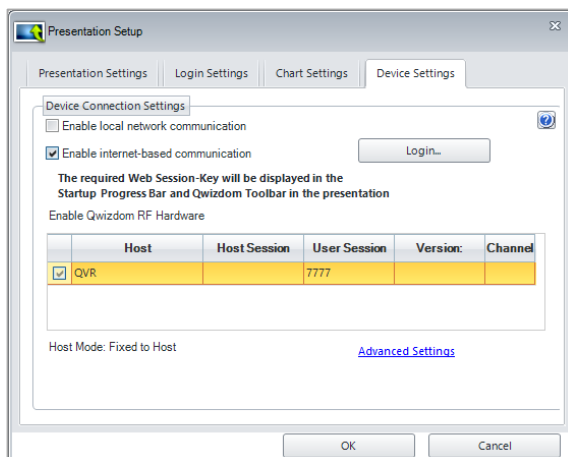

# Getting Started

## For the Instructor

- Click  to open *Actionpoint*.
- Select the activity to be presented then click  (**Start Presentation**) to begin setting up a presentation.
- In the **Presentation Setup** window, select the presentation options desired (i.e. **Participant List**, **Save Results**, and **Present As**).
  - When choosing **Anonymous** (**Participant List** drop-down menu), an ID number is not needed by User. In all other cases, Users will need an ID number and/or username and password.

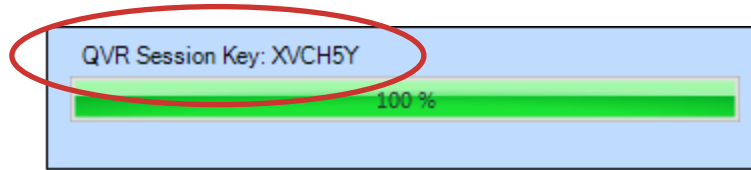

- Click on the **Device Settings** tab. Check **Enable Internet-Based Communication**. Click **OK** to present.

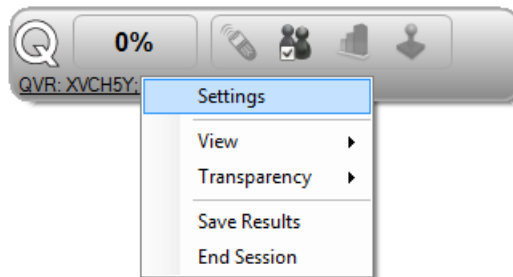

Login with your credentials. (If you have not registered, click on the 'New User' link at the bottom of the window.)

The **Session ID** will appear in two places:

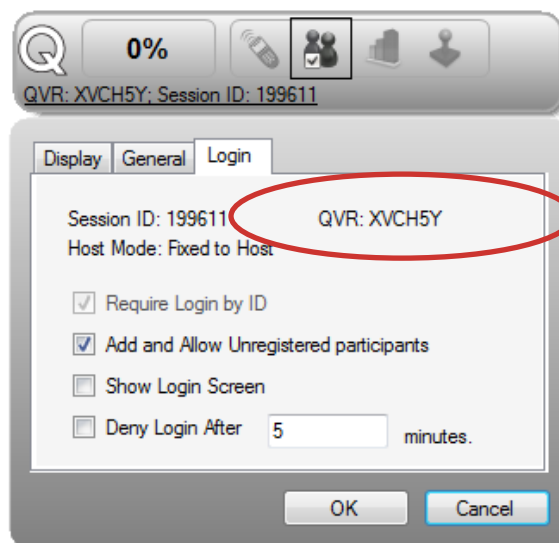

- initialization process window

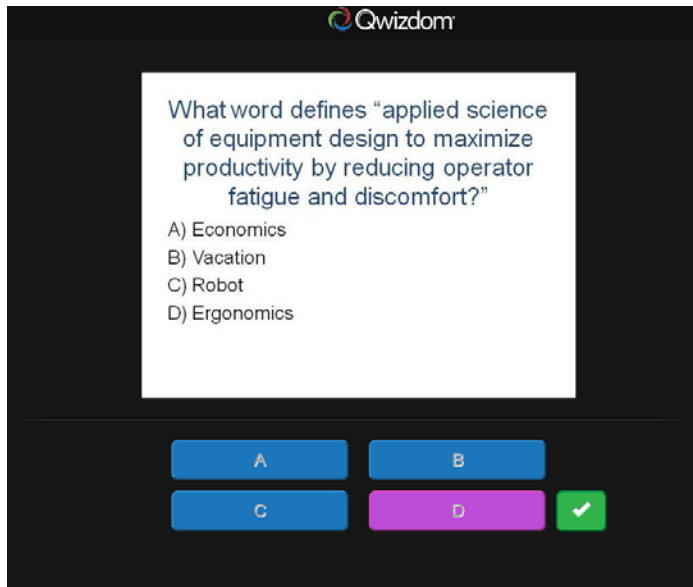

- the Qwizdom toolbar (presentation screen)
  - Right-click on **Q**. Click **Settings**.

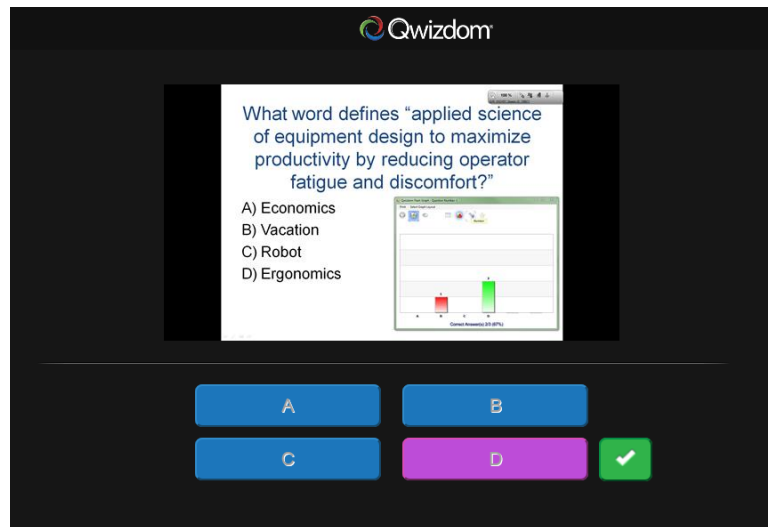

- Under **Settings**, click on **Login** tab. The QVR Session Key also appears here.

- The User will see the presentation via their personal web-enabled device.

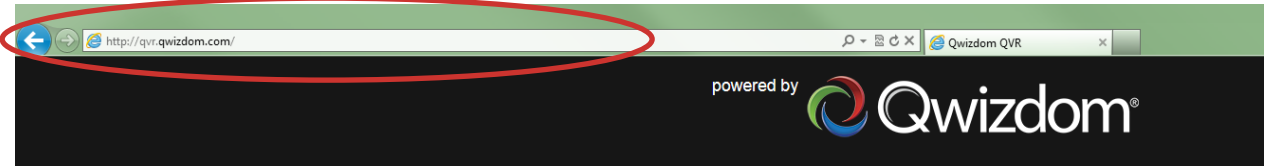

Note: The instructor can display a chart showing the results of all other users currently in the presentation.

- At the end of the presentation, the user will be informed it has ended.

## For the User

- Download the “Qwizdom QVR” app from *Google Play* (Android) or the *App Store* (iOS).  
OR
- Go to <http://qvr.qwizdom.com> on a web-enabled device.

- In the QVR window, select ***I have a Session Key***. Click ***OK***.

- Enter the ***Session ID*** provided by the Instructor. Click ***OK***.

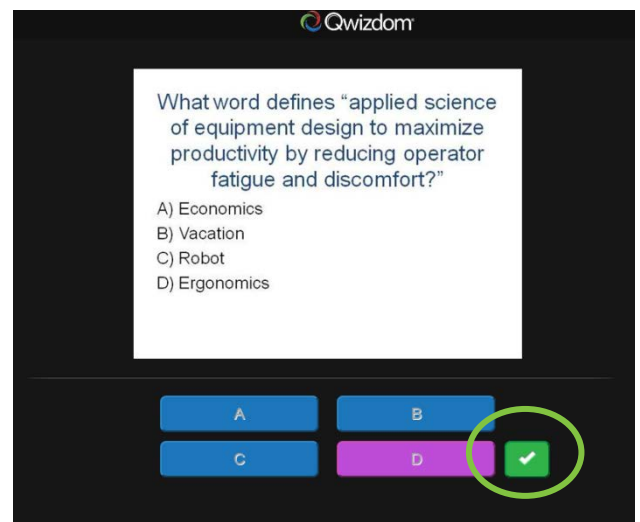

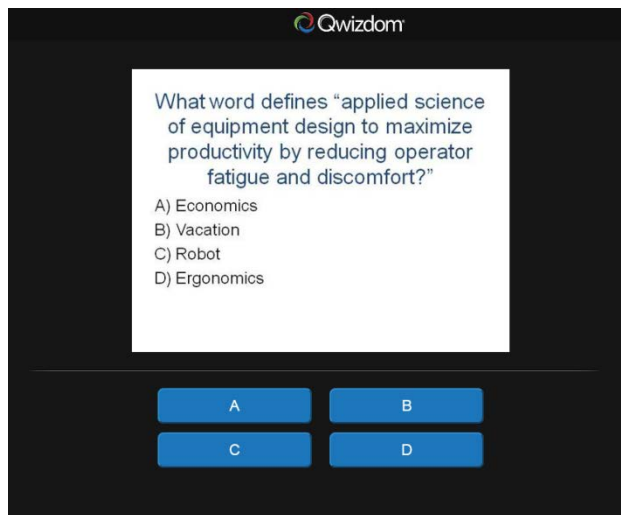

- Enter the **Login ID** provided by the Instructor. Click **OK**. The first slide of the presentation will appear.

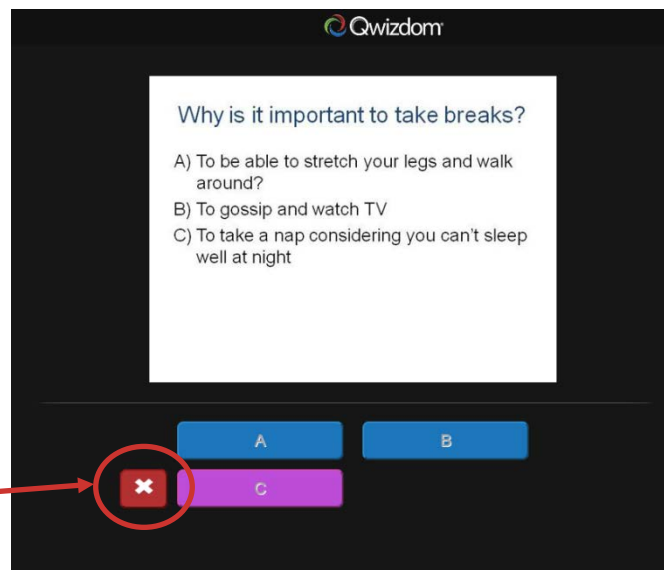

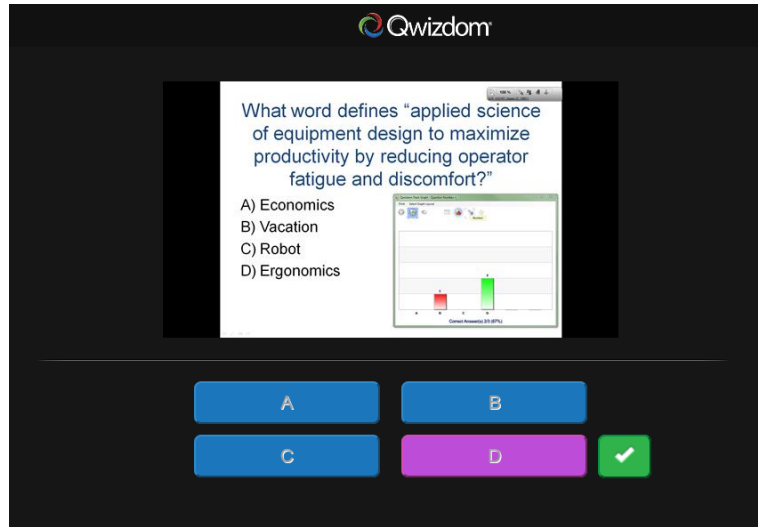

- For questions presented, select answers by clicking or typing the answers (Depending on the question type). Once an answer has been selected it will automatically submit the answer.

**\*NB\* some answers require the Submit button to be pressed if present.**

If the answer chosen is correct, a green checkmark will appear.

- The Instructor can also show all user answers via a variety of charts.

Note: If an answer is incorrect, a red X will appear.

- At the end of the presentation, this window will appear:
